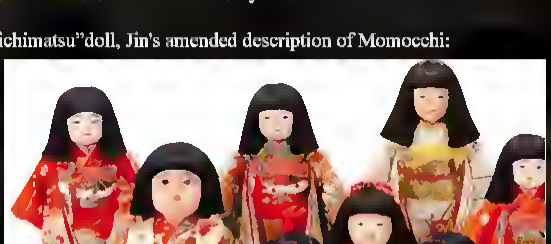
TRANSLATION NOTES

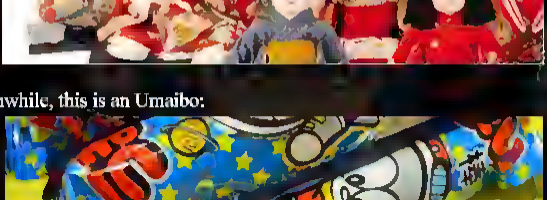
1) They're attending "Teihen" High. "Teihen" is spelled in different kanji in order to sound like a real name but the word "teihen" refers to a low-level school. The kind of high school crawling with punks and layabouts, in fact!

2) A zashiki warashi is a little child apparition that need to be minded lest they bring misfortune to the traditional homes they haunt.

3) An "ichimatsu"doll, Jin's amended description of Momocchi:



4) Meanwhile, this is an Umaibo:



They come in many, many, many, many flavors!

Final note: As you can see, the official name-order UBS uses is the Western one, hence "Jin Matsuriya" (as opposed to the original Japanese order of his name, Matsuriya Jin). I figure this is just a side-effect of the UBS app being tailored to a mostly Western audience, so I will continue to use the Japanese name-order for all Japanese characters.

THANKS SO MUCH FOR EMBARKING ON A NEW JOURNEY IN GUTS AND CARNAGE WITH US!!
